Ankara, Turkey

PROFESSIONAL SUMMARY

Junior QA / Software Test Engineer with a background in web development and hands-on knowledge of manual testing, test case design, bug reporting, API testing, and SQL. Familiar with functional, regression, smoke, and exploratory testing, as well as REST API validation using Postman. Experienced with web technologies including HTML, CSS, JavaScript, and React, providing a strong technical foundation for identifying and investigating software defects. Currently developing test automation skills with Playwright and Selenium.

SKILLS

Software Testing: Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Exploratory Testing, Test Case Design, Bug Reporting
Test Techniques: Boundary Value Analysis (BVA), Equivalence Partitioning, Decision Table Testing
API Testing: Postman, REST API Testing, HTTP Methods, HTTP Status Codes
Test Automation: Playwright, Selenium
Database: SQL, PostgreSQL
Tools & Version Control: Jira, Git, GitHub
Web Technologies: HTML, CSS, JavaScript, React.js
Methodologies: Agile, Scrum

PROJECTS

Aura Kırtasiye – Production-Grade Full-Stack E-Commerce Platform | Live Demo | GitHub

- Developed and deployed a full-stack e-commerce platform using React, TypeScript, Java 21, Spring Boot, PostgreSQL, and Flyway.
- Implemented and tested core user flows including product browsing, authentication, administrator access, payment processing, and order-related functionality.
- Integrated iyzico payment infrastructure, Google OAuth 2.0, SMTP email services, Spring Security session management with `HttpOnly`, `Secure`, and `SameSite=Lax` cookies, CSRF protection, and TOTP-protected administrator authentication.
- The project includes automated tests with Vitest and JUnit, GitHub Actions CI workflows, and production deployment on a Hetzner VPS using Docker Compose, Nginx, Caddy, Cloudflare, and Linux/systemd with automated health checks and backups.

Bug Hunter QA Project | GitHub

-

EXPERIENCE

Freelancer, Fullstack Developer | Remote **May 2026 – Present**

- Designed and developed responsive web applications based on client requirements.
- Tested application functionality across different user flows and identified and resolved frontend and backend issues.
- Debugged application behavior using browser developer tools and performed validation before deployment.
- Worked with Git and GitHub for version control and collaborated with other developers on project tasks.

EDUCATION

Anadolu University | Computer Programming | Associate Degree **SEP 2025 – Present**

ADDITIONAL INFORMATION

Certificates:
Udemy - Software Testing Training - 03.10.2026
BTK Akademi - Versiyon Kontrolleri: Git ve GitHub - 19.12.2025

Languages: Turkish (Native), English (Intermediate)
